What do we need to do before we pass it on to LB? Take another look and add comments? We should also explain to them that they are just going to polish and add figures to this CSM but not change the concepts :)

We need to pick this up again and finish it to the point that we can pass it onto our contractors to polish and make figures. This is what I have do date:

These files are the same, except that the "EPA CSM dft 021611.docx" has a minimum of redline/strikeout so is easier to read.

Here is a file of all of the figures that we have, referred to in above draft CSM.
